

Press release

Hydraulics specialist honored for outstanding delivery performance

WEBER-HYDRAULIK receives KION Supplier Performance Award

Wykroty, March 31, 2025. ***The hydraulics specialist has received the KION OTIF95 Supplier Performance Award. This award highlights the outstanding delivery performance and close cooperation between WEBER-HYDRAULIK and the KION GROUP.***

In 2023, the KION GROUP introduced the OTIF95 Supplier Performance Initiative to increase supplier efficiency and reliability. OTIF - or "On-Time In Full" is one of the key indicators of the company's efficiency in the area of logistics and enables the monitoring of compliance of deliveries to customers in terms of both quantity and punctuality. With the introduction of the Supplier Award, an ambitious target of 95% was set for the most important suppliers. WEBER-HYDRAULIK continuously exceeds the defined targets and is honored with the award for this.

Krzysztof Jauernig, Segment Manager Material Handling, emphasizes: "The satisfaction of our customers is our top priority. In order to continuously ensure our excellent delivery performance, we as a team react immediately to even the smallest deviations and are always looking for solution-oriented approaches. This proactive and reliable collaboration is of great importance to us, as it enables us to continue to operate at this high level and stand by our customers as a strong strategic partner."
